

Vermont Psychiatric Care Hospital Policy	
Recovery Services	
Revised: X	Date:

The Vermont Psychiatric Care Hospital Recovery Services and other clinical staff members provide a variety of therapeutic and rehabilitative activities used as therapeutic tools in providing active treatment to patients.

Therapeutic activities focus upon the development and maintenance of adaptive skills that will improve the patient's functioning.

Leisure activities provide the patient with individualized opportunities to acquire knowledge, skills and attitudes about meaningful leisure involvement and experiences.

The selection of individualized therapeutic and rehabilitative staff modalities shall be based on patient need and goals set in the patient's treatment plan.
