RE: Employment of CRT Clients: Third Quarters (Jan-Mar) of FY2011-FY2020

This week's PIP provides third quarter employment rates (January through March) of ten fiscal years, FY2011 through FY2020, for clients served by Vermont's Community Rehabilitation and Treatment (CRT) programs for adults with serious mental illness. Previous reports in this series are available online at:
<http://mentalhealth.vermont.gov/reports-forms-and-manuals/reports/statistical-reports-and-data>.

Like previous reports in this series, this report is based on analysis of data submitted to the Vermont Department of Mental Health (DMH) by the ten designated agencies, one Specialized Services Agency (SSA), and data obtained from the Vermont Department of Labor (DOL). More detail regarding DOL employment data are provided in each of the attached tables.

During the years covered by this report, statewide third quarter employment rates of CRT clients varied from a low of 13.3% in FY2011 to a high of 17.3% in FY2020. During the third quarter of FY2020, Washington (WCMH) and Lamoille (LCMH) had the highest employment rates (23.4% and 23.0%, respectively), followed by Addison (CSAC) with 22.7%. The lowest employment rates during the third quarter of FY2019 were in Pathways (PATH) with 2.5% and Southeast (HCRS) with 9.1%.

Statewide, the average third quarter earnings of employed CRT clients during the third quarter of FY2020 was \$2,757. Rutland (RCMH) had the highest FY2020 third quarter earnings per employed client (\$3,740), followed by Northeast (NKHS; \$3,471) and Northwest (NCSS; \$3,347). The lowest FY2020 third quarter earnings were in Pathways (PATH; \$1,634) and Bennington (UCS; \$1,750).

We look forward to your comments and your suggestions for further analyses of these data. As always, you can reach us by e-mail at ahs.dmhpip@vermont.gov.

Statewide CRT Employment Rates and Average Earnings Third Quarter (Jan-Mar) of Fiscal Years 2011 - 2020

	Third Quarter of Fiscal Year										
	<u>2011</u>	<u>2012</u>	<u>2013</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>	
% Employed	13.3%	14.4%	15.1%	16.2%	16.5%	16.6%	15.7%	16.3%	15.9%	17.3%	
\$ / Employed Client	\$2,348	\$2,308	\$2,318	\$2,301	\$2,338	\$2,611	\$2,488	\$2,887	\$2,987	\$2,757	

This report is based on analysis of the Vermont Department of Mental Health (DMH) and Department of Labor (DOL) databases, and includes individuals served by Community and Rehabilitation Treatment (CRT) programs for adults with serious mental illness. DMH client data are submitted by Community Programs in conformance with contractual requirements. DOL data are submitted by employers in conformance with state and federal laws. Workers who are excluded from DOL reporting are the self-employed, firm owners not incorporated and the following employee groups: elected officials, employees of nonprofit religious, charitable and educational organizations, unpaid family members, farm workers (with some exceptions), railroad employees, and individuals employed in neighboring states. Analysis includes all employment reported for CRT clients aged 18-64 who were active during each reporting quarter. Quarterly employment rates are lower than annual employment rates because not all clients who are employed during a year are employed during every quarter of the year.

Percent of CRT Clients Employed Third Quarter (Jan-Mar) of Fiscal Years 2011 - 2020
