

CCBHC Public Meeting Agenda

Purpose: The monthly meeting aims to establish a clear message on the progress of Certified Community-Based Integrated Health Centers (CCBHCs) in Vermont. The Department of Mental Health's mission is to enhance the health of Vermonters, and pursuing CCBHC status aligns with this goal by integrating mental health, substance use disorder treatment, health equity, and physical health into a comprehensive care approach. This model supports the State's broader efforts to integrate services across the health care sector, as outlined by the Mental Health Integration Council.
