Competitive Process vs Non-Competitive Process

Providers scoring highest on the preliminary readiness assessment are selected by the State scoring team to move forward with certification in DY2 or future demonstration years.

Considerations:

- **Availability of Enhanced Federal Match:**

States selected for the CCBHC demonstration are only eligible for the enhanced federal match for CCBHC for 16 quarters after they begin participating in the demonstration.

- **State Bandwidth and Resources.**

State can adjust number of new CCBHCs entering in a particular year based on resources.
