1. OVERVIEW:

- 1.1. **SCOPE AND BACKGROUND:** Through this Request for Grant Applications (RFGA) the Department of Mental Health (DMH), hereinafter referred to as the “State,” is seeking applications to establish subrecipient agreements with one or more non-profit entities to provide suicide prevention training for community members, the Vermont workforce, and mental health providers, Zero Suicide implementation, organize an advisory board, bolster lethal means safety, and provide technical assistance to community partners.

Suicide has been recognized in Vermont as a significant public health issue since 2000, when the Vermont Department of Health included goals related to suicide deaths, suicide attempts, substance misuse, and mental health as named priorities in Healthy Vermonters 2010 as part of the National Healthy People initiative. In acknowledgment of suicide as a priority in Vermont, the 2023 Vermont State Legislature passed [Act 56](#). To view the State Strategic Plan for Suicide Prevention, click [here](#).

- 1.2. **RFGA OBJECTIVE:** The purpose of the RFGA is to solicit proposals from qualified applicants for the implementation of the strategies and objectives set forth in the State Strategic Plan for Suicide Prevention. Proposals shall detail approaches to further develop and expand the state suicide prevention program in alignment with the State Strategic Plan.
- 1.3. **DESCRIPTION OF ORGANIZATION:** The Vermont Agency of Human Services (AHS) strives to improve the health and well-being of Vermonters today and tomorrow and to protect those among us who are unable to protect themselves. The scope of AHS is profound. Through its six departments, twelve district offices, and a network of community partners and providers, it is responsible for the implementation and delivery of all human service programs within the state. Each department has a distinct area of focus and responsibility and contributes to the creation and sustenance of an entire system of human service supports.

The Department of Mental Health (DMH) resides under AHS and has the same critical mission in mind: to improve the conditions and well-being of Vermonters and protect those who cannot protect themselves. DMH continues to focus on its vision for self-determination, empowerment, recovery, and resiliency. This means being responsive to the needs of Vermonters and their families, as well as continuing to challenge ourselves to try to change society’s culture, philosophy, and values, while working to fully embrace the concepts of recovery and resiliency. By improving our effectiveness and coordination of programs and services around the State, we will help Vermonters meet their needs.
