

# The ANSA at NCSS

Megan Shedaker and Samantha  
Thomas

January 10, 2020

---

# Where we started ...

- Early
- Thoughtful
- Measured

## Initial steps

- Established an implementation committee consisting of cross divisional reps including those with experience with the CANS – created team charter and project plan
- Kick off meeting with agency leadership and committee members then monthly meetings
- Online certified completed by all committee members
- Attended TCOM conference

## Then what?

- Explored existing versions, Cross walked versions, Landed on SB version to try out
- Began with chart reviews – Sam and a member or members of BH and DS
- Discussed pilot programs for initial rollout
- Collected data from those chart reviews
- Built ANSA into new EMR

## More activity ...

- Attended TCOM conference
- Expanded committee membership
- Online certification for all leadership in CRT and attendance at recent training in Montpelier
- Identified “Coaches”
- Expanded to clinical staff in CRT
- Currently completing chart reviews in CRT until VT version is ready
- Started planning our training roll out

# What's next?

- Present at agency wide leadership
- Coaches will begin completing the VT ANSA with clients
- Develop the “sell” i.e. one pager on benefits and the whys
- In person training, online certification
- Develop ongoing training and consultation plan
