

MH Integration Council Meeting

September 13, 2022

Pediatric Subgroup Notes

For the Pediatric Subgroup breakout, the notes are simply the changes made to the Vision/Principles document. We spent a lot of time discussing what that should be for the Pediatric subgroup. We also relooked at our own draft recommendations to see how it addressed equity and where to infuse more. We plan to continue that work next week. I was very much in the discussion and we didn't take thorough notes about the discussion, rather we captured the changes we were making in the draft documents.
